PROFILE

Senior IT Infrastructure Project Manager with 14+ years of enterprise IT experience, including approximately 8 years in project leadership and 4 years at the European Commission (DG DIGIT). Delivered infrastructure modernisation, storage, backup, virtualisation and security initiatives in regulated, multinational environments. Experienced in PM², PRINCE2, Scrum, Kanban and SAFe; cross-functional leadership; stakeholder management; and EU security approvals involving sensitive non-classified (SNC) information. Track record of recovering delayed projects, improving delivery predictability and coordinating complex enterprise migrations. PRINCE2 Practitioner, SAFe 6 Agilist, ITIL Foundation.

KEY RESULTS

- **Block-level backup, European Commission:** Recovered and formally closed an infrastructure project open for 3+ years by re-establishing scope, timelines and governance across **7+** dependent teams. The delivered solution reduced scan time, bandwidth consumption and storage requirements by **~90%**, and backup windows by **40%** versus the legacy solution.
- **Security hardening, European Commission:** Took over a high-priority project after multiple PM transitions, adding pre-production testing that caught critical issues before rollout. Delivered the PoC and first migration phase (**~6,000** devices, near-zero downtime) of a 20,000-device endpoint-protection programme, then handed the remaining rollout to the new Windows and Linux Scrum teams as planned.
- **Agile transition, European Commission:** Moved Backup & Storage delivery from Waterfall to hybrid PM² / SAFe across **11** concurrent projects, raising delivery of planned sprint work from **60% to 93%**.
- **Programme scale, Genpact:** Led the COVID-19 remote-work transition across **83+** concurrent client migrations, **5,000+** employees and **10+** project managers.

PROFESSIONAL EXPERIENCE

Senior IT Infrastructure Project Manager & Scrum Master Consultant — May 2026 – Present
Luxtech Innovation SRL · Bucharest

- Technical scoping and delivery planning for a Horizon Europe Research and Innovation Action proposal (HORIZON-CL2-2026-01), as partner in a consortium coordinated by Sapienza University of Rome. Submitted, under evaluation.
- Agile and project management consulting for infrastructure and IT: Scrum, Kanban and SAFe adoption, PM² and PRINCE2 delivery governance, risk management and stakeholder reporting.

Project Manager / Scrum Master, Backup & Storage — Mar 2024 – May 2026
European Commission, DG DIGIT · Contractor · Luxembourg City

- Selected by DG DIGIT for the newly created role of building C3's hybrid SAFe framework for Storage and Backup infrastructure from the ground up, combining Project Manager, Scrum Master, team lead and Service Owner responsibilities across projects and BAU.
- Led delivery of about **11** concurrent storage and backup projects (SAN, NAS, S3/object storage, hardware refreshes, platform migrations) with a squad of **9** engineers, architects and developers.
- Set up a hybrid delivery model with the team: Scrum for planned work, Kanban for incidents and BAU, refined through retrospectives.
- Block-level backup (BLB): Recovered and formally closed a project stalled for 3+ years. Re-established scope, design, delivery timelines and approvals with the customer's DSB team; coordinated **7+** dependent technical and vendor teams through RAID/RACI governance, escalation and reprioritisation.
- Represented the squad in a **~100**-person SAFe Agile Release Train, managing PI and sprint dependencies and building a Jira/Confluence dashboard to flag upcoming cross-team work.
- Ran the mandatory SNC security approval process for the Storage and Backup infrastructure.
- Governance: RAID log per project with owners agreed with stakeholders and architects, CAB changes with rollback plans and user communication, progress reporting on every project every 2 to 3 weeks.

PROFESSIONAL EXPERIENCE, CONTINUED

Senior IT Infrastructure Project Manager
Jul 2022 – Mar 2024
European Commission, DG DIGIT · Contractor · Luxembourg City

- Managed multimillion-euro data centre, storage, backup, virtualisation and OS-modernisation projects under PM², including transversal projects for EC institutions and EU bodies, coordinating architects, internal teams and third-party suppliers.
- Took over a high-priority 20,000-device endpoint-protection programme after multiple PM changes, spanning Windows, Linux and storage environments. Escalated critical test findings through a documented go/no-go decision, delivered the PoC and coordinated **~6,000** device migrations with near-zero downtime, then handed the remaining rollout to the new Windows and Linux Scrum teams as planned.
- Led the annual C3 Infrastructure Estate Report for European Commission senior management, consolidating inputs from C3 technical teams into business-oriented insights.

ICT Infrastructure Project Manager
Mar 2021 – Jul 2022
VOIS (Vodafone Intelligent Solutions) · Bucharest

- Managed **~30** concurrent EMEA infrastructure projects: storage, VMs, appliances, DNS, legacy-platform migrations and capacity expansions.
- Developed a project-management framework adopted by the internal PM forum and PMO; mentored incoming project managers.

Global Project Manager / IT Transition Manager
Jun 2018 – Mar 2021
Genpact · Bucharest

- Led the company-wide COVID-19 remote-work transition, coordinating **83+** concurrent client migrations, **10+** project managers and infrastructure dependencies affecting **5,000+** employees; managed cross-team delivery and transition governance to support business continuity.
- Delivered international infrastructure projects with individual budgets up to **€5M** under PRINCE2, owning scope, cost, reporting and governance.
- Managed service transitions: onboarding, rebadging, building takeovers and relocations, including SAP ERP integration and infrastructure workstreams.
- Designed a Continuous Improvement Platform generating **€150K+** in annual savings.

System Administrator & SCCM Engineer
Dec 2016 – Jun 2018
Genpact · Bucharest

- Redesigned SCCM endpoint infrastructure for **5,000+** users across **11** sites, consolidating **108** deployment task sequences into one automated workflow, and launched a self-service catalogue of **200+** apps.

IT Service Delivery Coordinator
Jun 2014 – Dec 2016
Heineken · Bucharest

- Led two on-site IT teams and L1/L2/L3 incident management in ServiceNow for **2,000+** employees, including SAP ERP application support.
- Managed vendor contracts.

Level II On-Site IT Support
Jun 2012 – Jun 2014
Genpact · Bucharest

- Supported **400+** users; European SCCM 2007 subject-matter expert.
